

Timeline activity

In the food industry, time management and sustainability are very important. Good planning saves money and time, and improves the quality of food products.

Complete the **food production timeline** for today's food product.

Recipe:

Total time: Date:

Time	Task	Student/s
	Hint: Use the recipe method to list and delegate tasks, remember to include set-up and clean-up	
e.g. 10:00-10:05 (5min)	e.g. Hygiene procedures (wash hands, clean surfaces/equipment, aprons)	All
